

コンクリート工学論文集

CONCRETE RESEARCH AND TECHNOLOGY

Japan Concrete Institute

Vol.21, No.1, Jan. 2010 (Issue 52)

contents

[Proposal for Estimation Method of Surface Chloride Content of RC Deck in Open-Piled Pier considering the Structural Types and the Influence of Wave Action](#)

By Takahiko Amino, Nobuaki Otsuki, Tsuyoshi Saito and Takashi Habuchi

[Fundamental Study on Mechanical Performance of Rigid Joint PCaPC Member to Cast-in-place Bottom Slab](#)

By Masahiro Nakai, Nobuaki Arai and Hidenori Hamada

[Development of a Simple Test Method to Assess Freeze-thaw Resistance of Recycled Aggregate](#)

By Hiroshi Katahira and Hiroshi Watanabe

[Properties of Ecocement Concrete Exposed in Marine Environment for Five Years](#)

By Yasuhiro Nagashio, Masami Uzawa, Toru Yamaji and Yoshikazu Akira

[A Study on Alkali-Silica Reactivity of Super Lightweight Aggregate Made of Yellow River Sedimentary Soil](#)

By Masashi Funabashi, Koji Tsuruta, Takahiko Sasaki and Junichiro Niwa

[Influence of Scaling Resistance of Frost Damage of Porous Concrete](#)

By Takuro Nakamura, Yakashi Horiguchi, Kazunori Shimura and Toshiyoshi Ishii
